S. A. Hively, proprietor of the Logan Hat Shop, at 63 East First North street, reports a very prosperous year in his line. He says that he never finds an idle moment. ## News From Junction

Cache Junction, May 10.—Cache Junction defeated the husky Wellsville ball team at Cache Junction Saturday, in their second game of the league, by a score of 12 to 11. The Junction boys made 12 errors or it would have been an easy shut out. Ecklund allowed only four scattered hits and struck out seventeen men, which we think is the pitching record of the season so far. Wellsville had the game won (so they thought) up to the last half of the ninth inning, when Holly started another batting rally with a single over first base. Drysdale struck out, Gregor singled, Ecklund followed with a three base hit scoring Holly and Gregor. Briggs then sent a two base hit to left field scoring, Ecklund and Canfield followed with a three bagger scoring Briggs. Baugh then came to the plate and slammed out another two bagger, his third hit of the game, scoring Canfield. Malmberg Maughan fumbled enough for Baugh lifted another over third base which to score the winning run.

## Change in Train Time

J. R. Morton, local agent for the Oregon Short Line Company, went to Salt Lake yesterday in the interests of Logan and Cache valley, on the matter of train schedule for the valley. A change is to be made in the very near future of the present train schedule on the Cache valley branch line and Mr. Morton is anxious to have the schedule so arranged that it will meet the approval of the business interests here. It is said that the company expects to make some radical changes with reference to the local train service. Some trains will be taken off the branch entirely but whatever is done, Mr. Morton is desirous that it will not interfere with the present local needs. As soon as the new train schedule or time table is arranged, it will be published in The Logan Republican.

### TALK ABOUT THE PIPE DREAMS WE HAVE

Advertising makes millionaires and presidents, makes great actors out of far coats with indifferent filling, supplies widows with husbands, babies with homes and deserts with people. Advertising gets some people into society and others into jail. Advertising supports literature and makes nations boom. The country which advertises waxes exceedingly great in immigration problems, while the land which has no press agents crumbles away and is discovered by archaeologists in the dim present.—Graphic.

## Tell Tale Clothes

How many times have you measured a business man by the furniture in his office, by the appearance of his store, the up-to-dateness of his store, the up-to-dateness of his factory? How many times indeed have "tell tale appearances" decided your course of action before a single word was spoken?

And how many times have you been judged by your personal appearance, your clothes—what sort of tales do they tell about you?
